## DETAILED ACTION

### *Specification*

1. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 31 and 35 rejected under 35 U.S.C. 102(b) as being anticipated by Lanier.

Lanier discloses a glue bond tester with features of the claimed invention including an arrangement for supporting a load cell, and an engagement to move the load cell and a support relative to one another with an engagement as a cranked bar such that its rotation causes said relative movement (see, for example, claim 8 and col.5, lines 20-31).

4. Claims 1, 3, 5-18, 20, 22, 26-27, 29-30, and 34 are allowed over the prior art of the record.

Art Unit: 2855

***Response to Amendment***

5. Applicant's amendment and arguments filed 6/15/05 have been fully considered but they are moot in view of the new ground of rejection. It appears the cited art teaches the aspects of the invention, i.e., a load cell and a support in relative movement by a rational means.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

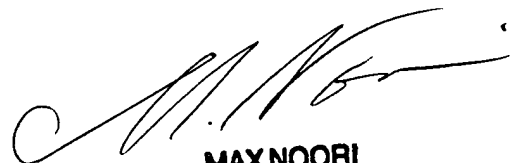

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Max H. Noori whose telephone number is (571) 272-2185. The examiner can normally be reached on Tuesday-Friday from 8:00 AM to 6:00 PM.
